Town of Kent Supervisor Maureen Fleming
 Kent Town Board Members
 25 Sybil's Crossing
 Kent Lakes, NY 10512

Subject: HVAC Award for the next Town Board Agenda

Dear Supervisor Fleming and Kent Town Board Members,

During the budget process the Town Board approved the purchase of a HVAC System for the Highway Department and funded the system in the 2016 Budget.

I had supplied the Town Board back in August with three written competitive proposals for the heating and air conditioning system for the front offices and lunch room at the 311 Highway Facility and have attached copies for your files.

I am recommending that we approve the proposal from Advanced Heating & Air Conditioning Corporation in the amount of \$13,250.00. The heat and central air conditioning as one unit will be more efficient and will definitely be a cost savings for the Town of Kent.

Please do not hesitate to contact me with any questions.

Sincerely,

Richard T. Othmer, Jr.
 Kent Highway Superintendent

Subject: Acceptance of HVAC Proposal for the next Town Board Agenda

Dear Supervisor Fleming and Kent Town Board Members,

Back in April I supplied the Town Board with three written competitive proposals for the heating and air conditioning system for the front offices and lunch room at the 311 Highway Facility and would like this to be voted on at the next Town Board Meeting.

Winter is fast approaching and I do not want to go thru another winter using space heaters. I am requesting that this be put on the September 22, 2015 Town Board Meeting Agenda and I am recommending that we approve the proposal from Advanced Heating & Air Conditioning Corporation in the amount of \$13,250.00. This will come out of the A-5132.4 Budget line in the 2015 Budget. The heat and central air conditioning as one unit will be more efficient and will definitely be a cost savings for the Town of Kent.

Please do not hesitate to contact me with any questions.

Sincerely,

Richard T. Othmer, Jr.
Kent Highway Superintendent

Subject: HVAC Proposals for the next Town Board Agenda

Dear Supervisor Fleming and Kent Town Board Members,

I have attached three written competitive proposals for the heating and air conditioning system for the front offices and lunch room at the 311 Highway Facility and would like this to be voted on at the next Town Board Meeting.

I have notified the Town Board previously of the cost savings involved with having central air conditioning vs. individual window units. Additionally currently there is office space that does not have access to air conditioning and is heated by a space heater. The air in this office does not circulate and it gets quite warm in the hot summer months.

I am requesting that this be put on the May 5, 2015 Town Board Meeting Agenda and I am recommending that we approve the proposal from Advanced Heating & Air Conditioning Corporation in the amount of \$13,250.00. This will come out of the A-5132.4 Budget line in the 2015 Budget. The heat and central air conditioning as one unit will be more efficient and will definitely be a cost savings for the Town of Kent.

Please do not hesitate to contact me with any questions.

Sincerely,

Richard T. Othmer, Jr.
Kent Highway Superintendent

April 15, 2015

Town Of Kent
62 Ludington Ct.
Kent, N.Y.

Dear Mr. Othmer,

As a result of our survey made of the location referenced above and after our discussion, we propose the following installation:

1. Furnish and install one Carrier 4 ton air handling unit in the basement, model # FB4CNF048.
2. Furnish and install on the outside of the building with a pad, one Carrier 13SEER 4 ton R410A heat pump condensing unit, model # 25HCB348.
3. Fabricate and install galvanized metal supply and return duct mains with either insulated metal round or insulated flexible run-outs. Duct mains to run along the floor of the attic.
4. Furnish and install approximately 12 new air outlets throughout the space; this includes the office, new addition space, tool room & loft. The register and diffusers will be standard contractor grade.
5. Furnish and install refrigerant piping from new air handler to new condensing unit.
6. Furnish and install condensate piping from the new air handler to either an interior drain, or the exterior of the building.
7. Furnish and install leader piping to cover new refrigerant/condensate piping.
8. Furnish and install one new digital programmable thermostat.

Exclusions: Power & Low Voltage Wiring, Cutting & Patching, Permit Fees.

We will start and test the completed installation. All parts and labor are guaranteed for one year. Carrier compressor and parts are covered under manufacturer's warranty.

The cost of the above is \$14,300.00 with terms: 30% upon signing contract, 30% upon delivery of equipment, 30% upon substantial completion, with the balance due upon completion.

Accepted by: _____

RESIDENTIAL • COMMERCIAL • SALES SERVICE • DESIGN

Option No. 1. – We will furnish and install necessary materials to create two zones for the space. One zone will control the new area on the right side, and the other will control the smaller offices, tool room & loft. This includes one new zone panel with two zone dampers and one additional thermostat.

The pricing for this option is \$2,250.00 added to the base price. See exclusions above.

Submitted to: Kent Highway Dept.	Phone: 222-9249	Date: 4/17/2015
Street: 62 Old Luddington Ct.	Job Name:	
City/State/Zip: Kent, N.Y.	Job Location:	

We hereby submit specifications and estimates for:

Condensing Unit: The condensing unit will be Carrier Comfort air conditioning and it will be 36,000 btus @ 14 SEER.. It will be installed outside in an agreed upon location and it will sit on a pre-formed 2" pad. It will have a separate weather tight service disconnect and conduit.

Air Handler: The air handler will be Carrier Comfort series and it will be located in the attic and it will sit on a Goliath base. The base will serve as the secondary drain and it will be equipped with an integral float switch to help prevent water damage to the ceiling if the primary drain system fails. The condensate piping will be PVC plastic and it will connect the nearest plumbing drain.

Duct System: The plenums and main trunk duct will be CertianTeed ToughGard premium duct. It will have a foil vapor barrier and a polyester liner. All branch ducts will be foil faced with a double ply polyester core and they will be equipped with a locking damper.

Duct Locations: A supply will be located in ceiling of each office, the workshop, workshop bathroom, and (3) sidewall supplies will be installed in the break room. The existing whole house ventilators will be removed and the system returns will be installed in the openings.

Registers & Grilles: All supply grilles will be white in color. All supply grilles will be equipped with an integral opposed blade damper.

Air Cleaner: The air handler is equipped with a 1" filter.

Lineset: The refrigerant piping will be insulated ACR copper tubing and it will connect the condensing unit to the air handler. It will be run exposed on the outside of the house and covered with a sleeve. The penetration of the exterior wall will be sealed with silicone caulking.

Electrical: All low will be done and will include a programmable thermostat. Line voltage wiring is not included.

Guarantee: All workmanship and material will be first quality and is guaranteed for 1 year. The system will maintain indoor temperatures in excess of NYS energy code. The workman will take care in protecting your home and grounds during the installation. All areas will be broom cleaned at the end of the day and at job completion. All Carrier equipment will be warranted for 5 years, parts only, by the manufacturer.

Test & Balance: Upon completion a 500 micron vacuum will be pulled on the refrigeration portion of the system which will remove moisture from the lines and verify the system is leak free. The air ducts will be adjusted if necessary to provide a balanced airflow.

- Permit and inspection fees are not included
- Supplemental electric strip heater installed in the air handler: add \$450.00 (Line voltage wiring not included.)

Thirteen Thousand Eight Hundred and 00/100	\$13,800.00
---	--------------------

Payment to be made as follows: 50% down payment and the balance upon completion.

Terms and Conditions on Reverse Side

Terms and Conditions:

Workmanship:

All work will be performed in a workmanlike manner and will be consistent with normal trade practices and or local codes.

Warranty and Service:

1. Upon completion we will provide all equipment manuals shipped with the units and you will be instructed on the use and care of the system.
2. Service under this warranty will be provided under normal working hours, this does not include resetting of circuit breakers, replacement of fuses, replacement of filters and any damage as a result of neglect or abuse.
3. Extended Warranties are a contract between you the equipment owner and the manufacturer. You will receive the official extended warranty contract detailing the specific equipment covered, the length of warranty and the terms of the warranty directly from the manufacturer shortly after the installation is complete when payments are made in full.
4. The 1st annual maintenance is included. When you receive our service contract in the spring simply return it to us (without payment) and mark the service contract "1st service – no charge".

General:

1. The design conditions used for system sizing were:
 - a. Good-Average building construction and infiltration rates.
 - b. 94 degree F. outdoor temperature with an indoor temperature of 72 degrees F. @ 60% RH
 - c. Indoor heat gains from normal summertime showering, cooking, appliances and occupancy.
 - d. No additional capacity for parties/entertaining, heat producing equipment, additions or special circumstances was included unless specified.
 - e. We are not responsible for equipment, duct, piping, wiring, or other items that were existing and were not installed under this proposal unless specified.
2. It is your responsibility to provided space and access free from obstructions so that the installation may be completed without the necessity of moving equipment or other materials.
3. During installation all reasonable precautions will be taken to avoid injury to persons and damages to property.
4. This proposal will be the entire agreement and any changes desired shall be made in writing and signed by both parties.
5. The execution by all parties of this proposal will result in this proposal becoming a contract and any alteration or deviations from this proposal shall be valid upon written notice and signed by both parties.
6. Title to any and all equipment installed will remain in Sigma-Tremblay until such time that full payment has been made. Tremblay & Co. has the right if payment schedule has not been met to stop the job and remove the equipment.
7. Sigma-Tremblay retains the right to transfer any and all notes or other indebtedness held pursuant to this contract, and the right or title will pas to the transferee.
8. Any additional labor equipment required for installation due to unforeseen circumstances will be provided only after written notice.
9. This proposal and all subsequent contracts are contingent upon normal good conditions and shall be null and void in the event of strikes, accidents, or delays beyond the control of Sigma-Tremblay, including acts of God.
10. Sigma-Tremblay will be fully covered by workman's compensation insurance and contractor's liability insurance. The owner and or signer of this contract shall carry any and all necessary insurance with relation to tornado, fire, theft, vandalism, riot or other coverage.
11. In the event that a breach occurs on behalf of the buyer, or that it becomes necessary to hire an attorney on behalf of the seller, the purchaser hereby agrees to reimburse the seller all reasonable attorney and collection fees.
12. The buyer has an unconditional right to cancel this agreement without penalty or obligation until midnight of the 3rd business day after the agreement was signed. Cancellation must be done in writing. Upon cancellation, any property trade in, any payments made under this agreement and any negotiable instruments will be returned within 10 business days of receipt of cancellation. (This right to cancel does not include requested emergency repairs or installations where time is of the essence).
13. A finance charge of 2% per month (24% per year) shall be charged on all unpaid bills over 30 days from final invoice.

December 24, 2015

Honorable Members of the Town Board & Town Board Elect;

Attached please find a memo and backup from Municipal Repairs Manager Nick Mancuso to me dated October 23, 2015 concerning the purchase of new equipment. I was waiting for budget adoption before I forwarded the information to the Board. These are the items that we need to purchase for the 2016 season to keep the modernization program of our fleet intact. The monies for these purchases have been appropriated for; and I will still have an approximate additional balance of \$100,000.00 that I will utilize in purchasing US Government and Military Surplus equipment.

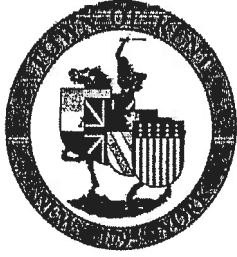

The two dump trucks are ready to be picked up after January 1, 2016 and are necessary for our snow plowing operations which upon my taking office two years ago, was in disarray with all the old trucks constantly breaking down. Additionally, it will take a couple of months for the other items to be ordered and delivered. I would like to get a head start so we are ready to move on projects as soon as spring arrives. All these items have been thoroughly investigated by me, the Municipal Repairs Manager and our Senior Construction Equipment Operators. We have had salesmen conduct demonstrations in our yard so we could completely evaluate the equipment to our particular needs.

I would respectfully request that you put this on your next Board meeting agenda so we could expedite these purchases.

Sincerely;

Richard T. Othmer Jr.
