Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Printed materials in the form of pamphlets and information sheets have been made available at the Town of Kent Town Hall and Town Library. The town web site has a dedicated stormwater section as well as a second section on lake management which contain significant areas of information as well as sources of downloads.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

There were a total of 149 brochures that were distributed within the last reporting period and 422 people attended a community clean up day as well as meetings and events where stormwater practices, plans and designs were discussed. The town stormwater and lake association websites provided a continual source of information to the public regarding stormwater issues as well as links so that residents may obtain detailed information on a variety of stormwater topics.

C. How many times was this observation measured or evaluated in this reporting period?

			2
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The town lake association has continued to grow and will be hosting a regional water quality seminar in June 2019 which will focus on phosphorous reduction. The town also conducts a monthly meeting in which the town professional land use consultants are available to residents to answer development and stormwater related questions. The two websites will continue to be updated and form a good basis of information regarding stormwater/phosphorous issues ..

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

All public meetings will continue with the Town Board, Planning Board and monthly consultant meetings all providing forums for public participation. Monthly lake association meetings are held on Saturday mornings and are open to the public. Participation in CSLAP lake testing programs is anticipated to increase and the annual Kent Clean-up day to clean up floatables and other debris will continue to expand on a town-wide basis. A town wide outfall testing program will start in 2019.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

62 dry weather outfall inspections were conducted in the reporting period with additional outfalls inspected as part of detention basin, HDS, swale and channel inspections. Four illicit discharges were detected during the reporting period three of which were failing septic systems that were referred to the Health Department and corrected or dumping which was corrected.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town Building Inspector and the Town Highway Department continue to conduct outfall inspection and investigate illicit discharges. Field inspection and detection methods to identify potential illicit discharges continue to be conducted. Employee and contractor training has continued to be available at consultants meetings.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

All projects are reviewed under the enhanced phosphorus compliance standards utilizing the NYSDEC Stormwater Design Manual as well as the most recent NYSDEC Erosion and Sediment control manual ("Blue Book"). All projects with greater than 5,000 square feet of disturbance are required to file a SWPPP which is reviewed by the Town Engineer. All sites with stormwater permits are inspected at least once or more.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

All reviews and inspections are conducted by the town engineer and SMO in accordance with local, NYCDEP and NYSDEC permit requirements and protocols. Construction projects in which there is more than 5,000 square feet of land disturbance were reviewed and SWPPP's were required on all projects. Required inspections of each site were conducted in order to ensure compliance with the permit conditions.

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Town of Kent will continue to review all applications, Construction activities which have 5,000 square feet or greater land disturbance will be required to submit appropriate SWPPP's and if land disturbance is greater than one acre SWPPP's include post-construction practices. Site inspections will continue to be conducted in compliance with all permit requirements.
